

January 2022

To Whom It May Concern:

Lisa Sidorowicz is a Certified Core Belief Engineering Counselor, licensed by the College of Core Belief Engineering, since 1998: License #518. CBE Counselors must update and renew their standing with the college on a yearly basis; Lisa has met or exceeded all requirements.

The College of Core Belief Engineering is a division of Core Belief Engineering Ltd., developed and founded in 1985 by Elly Roselle. The college was registered with the Private Career Training Institutions Agency (PCTIA) of British Columbia from 1997 to 2016 (accredited from 2006 – 2011) and the Private Training Institutions Branch (PTIB) of the Province of British Columbia from 2016 – 2017: Institution #1818. Human Resources Development Canada has approved the college as a private training institution: File # 7009/8716. Core Belief Engineering Ltd. was an accredited business with the Better Business Bureau of Lower Mainland BC from 1991 – 2014.

Core Belief Engineering is a one-on-one counseling method that aids individuals in making significant and permanent changes in their lives.

The mission statement of Core Belief Engineering Ltd. is to create, develop, practice and teach principles and methods that facilitate change in core belief structures in the conscious and subconscious mind and to train Practitioners and Instructors in the CBE theory, methods, processes and techniques required for consistent, creative, competent professional service. Our methods are dedicated to permanently resolving emotional and mental conflicts as well as building, strengthening and enhancing personal expression, communication, talent, creativity, performance, productivity, confidence, profitable relationships, good health, happiness and well-being.

Please feel free to contact Core Belief Engineering Head Office toll free to speak personally with Elly Roselle, the college founder, if you require further information.

Thank you.

Sincerely,

Judith Scott, Registrar
College of Core Belief Engineering
